Dear Mr. Baldwin,

Thank you for your spectacular talk, "I CARE", during our faculty meeting here at Miles College. Several faculty members have commented on how you inspired them to continue changing the lives of students after hearing your message, "I CARE". You hit the right notes and the vote was unanimous that they want to hear you again.

You possess an amazing gift of inspiring people to action. They sensed you were talking to them personally. After reading your biography, I concur with President George H. Bush, who selected you and your organization as one of America's Points of Light. You do affect many lives positively. You have a unique way of making every one in your audience feel important and empowered

Thank you for all you do, especially for reminding our faculty of their value and their significance in molding the leaders of tomorrow.

Emmanuel Chekwa
